Seasons	105
Alternate Pages (alternate spelling/wording)	112
Credits	117

Note: the left/right hand question (p. 15) has two options: one page to view as palms up and one page for palms down

Thank You!

Thank you for purchasing part of the Question of the Day for Beginning Readers series. This set includes 100 questions to be used in a pocket chart. The questions in this series incorporate picture cues and high frequency words, which allow beginning readers to read the questions with minimal assistance. The repeated use of high frequency words also helps beginning readers commit these words to memory.

Pocket Chart Card Directions

To use the pocket chart cards, cut out and laminate the question and response cards. Place the question cards in the top of a pocket chart, with the response choices in the pocket below. For each child in your class, create a card that includes either their name or their photo. As students enter the room each day, they read the question then place their name/photo card below the card that matches their response.

Some questions include more than two responses. Two response cards are on the same page as the question; the remaining cards are on a nearby page.

The set also includes generic cards questions with responses of "neither," "both," or "don't know." Use these with any question when you feel it is appropriate or necessary.
